LAW INTELLIGENCE.

THE GREENWICH STREET MURDER-TRIAL OF MAURICE O'CONNELL.

COURT OF OVER AND TERMINER—JAN. 22.—Before Judge

The Court was opened this morning at 10 o'clock, and the Court-room was densely packed with a crowd of eager spectators till the hour of adjournment.

Mr. Chiton first rose and asked the Court that James Toole, indicted with O'Connell for the murder of Feresa Spitzien, be allowed to withdraw his plea of guilty to maninaghter in the first degree, and put in his former Spitzen, be also to the first degree, and put in his former pies of not guity to the indictment in general. The District-Attorney making no opposition to the motion, it was granted, though the Court in granting it, incidentally protested against allowing such change of piese as a rule of practice, and his Honor said he should be reafter require the strongest possible reasons for thas substituting one plea for another.

The completion of the panel of juvors for the trial of Maurice O'Connell was then proceeded with. About thirty jurors were called, when the 12th juror was finally obtained, Francis George, stable-keeper, Nos. 124 and 13c West Broadway.

Mr. Richardson, one of the eleven jurors sworn in yesterday, having before the adjournment inti-

Mr. Richardson, one of the eleven jurous sworn in yesterday, having before the adjournment intimated that he had conscientions struples about capital punishment, Mr. Whiting, for the prosecution, saked the privilege to examine Mr. Richardson under each on that point. Mr. Clinton, for the defense, objecting to the right of the counsel to except to a juror after he had been accepted and sworn in, Mr. Whiting read from the decision of the People vs. Damen, where the Court had allowed such examination of a juror.

The Court permitted the Juror to be questioned, when he answered, substantially, though having con-

The Court permitted the Juvor to be questioned, when he answered, substantially, though having conscientious scruples against capital punishment, he should yet feel bound to render a verdiet of guilty, if the evidence warranted it, and would not regard himself as responsible for the capital punishment that might follow.

Hr. Whiting expressed himself satisfied with this answer of Mr. Richardson, and the Juror was accepted. The entire number of Jorymen was then made out, and, with those impanneled yesterday, consisted of the following persons:

made out, and, with those impanneded yeaterday, consisted of the following persons:

Junia J. Johaston, retired merchant, No. 55 Sixth avenue;

James R. Taylor, machinist, No. 19 Mangin street; John Moleshei, boarding house koeper, No. 55 Market street; Fletcher Harper, je., editor, West Twenty-second street; Robert Taylor,
pisaterer, West Twenty-minh street; Flitch Rehardson, stakoner, No. 177 Eighth avenue, Clarick F. Stephenson, etch.

No. 65 Beaver street; David Griff the, merchant, No. 317 Sixth

avenue; James Esdie, greer, No. 275 Washington street, Parrick Noonan, storage, No. 119 Greenwich street; Francis George,
dablekeeper, Nos. 124 and 150 West Broadway.

All the inprove not, worm in this case were then dis-

All the jarors not sworn in this case were then dis-charged from further attendance.

Mr. Sedgwick then rose and opened the case to the Jury, passing over it so far in detail as was necessary to present its more prominent and commanding facts and circumstances. The Assistant District-Attorney observed that there was no remance in this case, but that it consisted, simply, of a combination of coarsely disgusting facts. It want to show that there are no retions of this city where there is no restract for lower disgusting facts. It want to show that there are portions of this city where there is no respect for law or
for any of those objects laws are designed to secure.

Mr. Sed wick then said this case came under one of
the subdivisions of murder, which he read from the
statute as consisting in the commission of a felony, in
consequence of which death resulted, without the design of the perpetrator to effect death. Now said the
District-Attorney, the felony committed in this case is
rape, upon the person of Teresa Spitzlen, in conseqquence of which the death of the woman violated folfowed. Counsel for the presecution then went more
fally into the facts of the case, the particulars of
which have been heretofore published, for his agency
in which Maurice O'Connell is now on trial for murder. The outrage was committed on the night of the
5th of November last, at a lager-beer cellar at No. 32
Greenwich street, by violating the person of Teresa

der. The outrage was committed on the night of the 5th of November last, at a lager-beer cellar at No. 32 Greenwich street, by violating the person of Teresa Spitzlen, an elderly German woman, in consequence of which outrage she is alleged to have died. "Sailer Das." Hagan and James Toole are inducted with O'Cornell for causing the death of the German woman, but all have claimed separate trials.

The first witness called by the prosecution was a bey named Martin Devine. Being swern, he add he lived at No. 34 Greenwich street, and was a bestman by occupation; he remembered the night of the death of Teresa Spitzlen, and know all the accused, he also anows he lie Blockburne; on the night in question witness first new "Sailor Das" and soon after saw Toole, and then he saw O'Cornell at No. 32 Greenwich street; soon after witness saw Hasan, and, following him, saw Blockburne; on the reservance at No. 32 Greenwich street; when a saw "Sailor Das" as away somewhere, he didn't know where; the meeting foot place outside of the door of No. 32 Greenwich street; when witness first met the above puries, O'Connell spot hist; he said, "come on the burn," which witness said mean, "not to pay for the lager been and claims," other slowers when all they wave stiffed; there were two or three in the saloun; when said not know exactly how many hefore soing in the salour, "Sailor Dan" said, "I'll get Martin or Peterto open its door;" "Sailor Dan" said, "I'll get Martin or Peterto open its door;" "Sailor Dan" then went down and knowled at the front colin door; he sail, "Pill get kim to open the door, and I'll let you in the hack way; this was said to sill of the accused, and some others who were present; O'Connell and Toole then went down to measure to that in Laff, witness saw them come wet, he head a me selled fa no iss while the secured and some others who were present; O'Connell and Toole then went down to a lace where some meet was not say whether they went by the front of the head. "O'Connell spain the might him of the cellar, and

the prisoner now on trial was the first who spoke about going there on the night in question; Salier Dan had told witness he was in the habit of going there and "visting" one of the girls.

Witness was again examined by Mr. Whiting for the processurion, but without elicities mything of importances.

Leslie Blackburne was the next witness sworm by the prosecution. He said he lived at No. 28 Greenwich street, and was a clerk in the store of his buther at No. 198 Greenwich street, and was a clerk in the store of his buther at No. 198 Greenwich street, and was a clerk in the store of his buther at No. 198 Greenwich street, and was a clerk in the store of his buther at No. 198 Greenwich street, and was a clerk in the store of his buther at No. 198 Greenwich areas the celar of No. 32 Greenwich street on the night in question, between 73 and 8 o'dock; the prisoner on trial and Toole ware together; witness was standing with Hagan en the certer of Morra street, witness was standing with Hagan en the certer of Morra street, witness was then the street, and "Salor Dan" came toward them; witness then remained where he was, and the clier three started for the becoment; O'Conneil said, "Let us go down in 32," Hagan also made, "Let us go down and get coffee money." witness was then about two doors from the cellar; three went down tile back way, and Salor Dan went in the cellar, be didn't see O'Conneil there at all, as he recolected, but saw Toole and Hagan in the first year; witness was then went down in the cellar; be didn't say O'Conneil there at all, as he recolected, but saw Toole and Hagan in the first year; witness was collected, but saw Toole and the cellar, followed by "Salor Dan," and then came O'Conneil the prisoner on trial their said, "There is a woman in the cellar the cellar, followed by "Salor Dan," and then came O'Conneil the prisoner on trial their said, "There is a woman in the cellar thead," and we are going to be arrested; all of them incarbed, O'Conneil the prisoner on trial their said, "There is a white

RESIDENCE OF MAKERS OF NOTE TO EXCUSE DE-

NESIDENCE OF MAKERS OF NOTE TO EXCUSE DEMAND AND HOLD INDORSERS.

Theodore C. Feode et al. agt. John S. Harris et al.

Notice to a special partner of a defense to a note held to be rotice
to his firm, although there was a franker by the special partnes to the firm before mathrally, for a full consideration.

A release by a holder of a note of the makers from all demands
discharges the indersers on a note not yet due.

This action was against the defendants as indorsers
of a note for \$3,000, made by L. Cadwell & Co. to the order of
defendants. One ground of defense was that the indorsers were
released, so there had been no demand of payments from the
makers. The note was dated in New York, but not maje payable at any particular place. The notary becified that the note
was net marked upon it. That he locked in the Firectory, and
did not find their pances. That he went to the Post-Office, and

ecuid not bear of them. That he then went to the place of two new of the indoxers, the defendants, and made inquiry, but the new of the indoxers in inquiry for the unkers of some on there and was informed by the person there that he knew out ing of them. That he then went to the plantifle store and it was ing of them. That he then went to the plantifle store and it was ing of them. That he made to guide for the defendants among business men, and once work to the fiberock, of whose he hasht the acts, to inquire, but did not find him it. That he was notimed by some one there that the makers hadrons were the same formed by some one there that the makers hadrons were for the indoxers were at the runtiffy of the note at the call in specific yard of Mesers. Catwell & G., and had never removed an it that their places of residence had not best cheaped. That he senior partner had gone to Illinois, but that his family remained. That both Mr. Hoppock and the indoxers knew where Codwell & Co. were to be found.

the senior partner and rose to future, where the mained. That both Mr. Hoppeck and the indorsers knew where Cadwell & Co. were to be found.

The Court height hat the plaintiffs had exercised due diligence, and that the ordission of the demand was excused.

The defendants claimed that the none was given by them for the accommodation of Mr. Hoppeck, and proved a release of all demands against L. Cadwell & Co., the makers signed by Mr. Hoppeck while the bode was in his possession but before its materity. They also proved that at the time the note was transferred by Mr. Hoppeck to the plaintiffs, he was a special partner in their firm.

The Court instructed the Jury that as the note had been transferred by a special partner to the firm the firm took it subject to all equilities between the original sprites. That if the Jury believed the release of the makers because operative by the understanding of the parties, it discharged the interest athough the note was not due when it was executed.

The Jury rendered a verdict for the defendants.

For plaintiffs, Miller, Peet & Nichole; for defendants, Mr. Stanley and Mr. Brady.

A large business was transacted at the morning Board, but for a majority of the stocks dealt in prices were rather lower. New-York Central declined I, but held the own very well under the peculiar state of the market. Erie was strong with moderate sales. Reading also was firm, and advanced to 573. Michigan Southern was heavy at 19, and Toledo was dull at a slight decline. Galena was firmer. Rock Island had a drooping tendency, and sold down to 661, and at 66] afterward, though not registered at that quota-tion. Cleveland and Pittsburgh and Hariem were both better, but not especially active. Comberland settled down to 142, and was heavy. At the Second Board the tone of the market changed, and the leading bonds and shares stiffened at oree, and were nearly all higher. New-York Central, Erie, and Illinois Central were the most active, at a decided improvement in each. Bond transactions for the day were unusually well distributed, and in the aggregate were large. Missouri's declined to 84 in the morning, but partially recovered from the decline at the Second Board. Tennessee's were a trifle better, and firm through the day. California 7s advanced, and were steady at 75% in the afternoon. Illinois Central's sold down to 93? at the First Board, but sympathized afterward in the upward turn of the market, and were held at 95. La Crosse Land Grants show an improvement of 2 F cent on opening sales, the injunction matter being now in a fair way of settlement again. If this injunction be ramoved, the coupons due on the 1st of February will be paid, and the completion of the road to La Crosse will go on vig-orously. The President, Mr. Clark, is in town, and the Board of Directors are in session here. The market closes at 6 \$\text{P}\$ cent advance on the last price of yesterday. The market generally was very strong after the Second Board. Erie went to 221, and Camberland to 151. The bears are very shy of putting out contracts in this stock, and the bull party thus far appear rather unwilling to increase their line of cash stock or buyers options. Illinois Central was buoy-ant, and 95½ was bid. The loan of this Company has been taken to an extent sufficient to supply the immediate wants of this Company, and it is not improbable that the issuing of the remain-der may be postponed until the falling in of the July options. New-York Central was 82. It is understood that the dividend question will be disposed of at the meeting of the Directors called for Tuesday next. Reading was 58@581 at the close. Rock Island 67, which is better. La Crosse, II—also an advance. Galena improved to 751 bid. The tenor of the forthcoming circular we understand will be, that the road has been fully repaired, with extraordinary disbursements to the amount of \$93,000; that six new engines and 200 new cars have been purhased at a cost of \$100,000; that fifteen months' consumption of wood is on hand and paid for; that the

responding period of the previous year.

There is nothing doing in Exchange, but the supply of hills is increasing. Rates are firm but nominal.

Freights are without change. To Liverpool, 1,500
bbls. Flour, at 1s. 101d. #1s. 11d.: 39,000 bush. Corn, at 41d. a5d., the latter rate per clipper-ship; 500 bales Cotton, at 3-16d.; 100 boxes Bacon, at 20s.; 400 bbls. Lard, at 20s. To London, 1,300 boxes Cheese, at 30s g 35s.; 150 boxes Bacon, at 25s.; 300 cases Mustard Seed, at 35s.; 120 tos. Pork, at 5s.; 40 bbls. do., at 4s. To Glasgow, 6,000 bush. Corn, on private terms. A three-masted schooner of 370 tuns, with Ship Plank

road has been run for 56 P cent, and that by the economies which have been introduced, the net carn-

ings of the past four months, notwithstanding the reduced receipts, have been greater than for the cor-

from Darien, Ga., to New-York, on private terms.

The business of the Sub-Treasury was: Receipte \$332,346 15; from Customs, \$75,000; Payments, \$77,092 56; Balance, \$3,320,548 32. Included in the receipts are \$70,000 for account of the Interior Department, and a considerable sum for Treasury Notes. Mr. Cisco received to-lay \$150,000 of the new Notes, of small denominations, for which the demand has been moderate. In the street the rate is [w] P cent discount. The Banks do not but in exceptional cases receive these notes on deposit. The advices from Washington are to the effect that Mr. Secretary Cobb is very indigment at the managers of our banks be-cause they will not lend the Government gold at 3 \psi cent for an interest on unconvertible Treasury issues which they cannot get rid of, if desirable, excepting at a discount. When he recovers his equanimity and advances the rate to 3 65-160ths or 4 P cent, he will doubtless have all the money offered him which the

Treasury needs.

At the meeting to-day of the Rock Island Directors there was nothing of importance done. The Board

adjourned to to-morrow.

As we stated yesterday, the price of the Reading bonds has been put by the Company from 70 up to 75. A private sale has been made in Philadelphia of \$260,-

tions in the street, although not at all adverse in its financial items; this produced the slight depression witnessed at the morning Board. The Canada's news, which was announced between the sessions, was construed more favorably, and hence the sudden revival. The most prominent feature in the foreign money news is a further reduction of the bank minimum to 5 \$\varphi\$ cent in Eugland. Money was easier. The quotation for Consols by the Canada is a slight improvement over those brought by the Kangaroo. The commercial news is less encouraging. The markets for Cotton and Breadstuffs were dull and lower.

The London correspondent of The Commercial Ad-

rectiser writes by the Fulton:

"The mercantile convulsion at Hamburg has been followed by the most singular rebound ever witnessed. Only a few weeks ago discount was hardly obtainable at 12 \$\psi\$ cent, and on Saturday last it was down to 22 at 12 % cent, and on Saturday last it was down to 22 & cent. Evidently it was confidence that was wanted, and not money. The bills in circulation when the crash came were for the most part founded upon nothing. These have all been swept away, and the choice paper that now represents the trade of the place is comparatively of such limited amount that all the discounters are eagerly competing for it.

"There have been no additional failures in London

"There have been no additional failures in London of any magnitude, and it is now hoped that the list is nearly brought to a close, especially as a partial recovery in the silk market has benefitted some of the second or third-rate Indian firms that were thought to be in peril. In the Provinces, however, several further stoppages have taken place, and in a large number of the second or the company of the com ber of instances the examinations instituted lead to very discreditable revelations. The accommodation bill system has everywhere been carried to a point never before reached or attempted.

"A reduction of the Bank rate of discount from 6

P cent to 5, is confidently looked for either this week or next. In the open market the best paper can be negotiated at from 4! to 5 P cent, and there is a great disposition to take that of long date. In the Stock Exchange, the supply is still more abundant, and loans on Government securities are obtainable with ease at

A movement has been set on foot by some of the principal firms and banks connected with India and China, to shorten the usance of bills drawn in those countries from the present term of six months to four months. The Oriental Bank has joined in the plan, and arrangements have already been made to put it in operation. Its tendency will, of course, be to check the facilities for unsound trading."

We also learn by the Fulton that business is improv-

ing but slowly in Paris. The petty dealers along the boulevards complain that during the continuance of the late cold weather they scarcely sold anything, and the demand on the larger traders is not great. General demand on the larger traders is no great. General commerce in the Departments appears to be resuming its ordinary course. Purchasers present themselves, and everything tends to announce the termination of the crisis. The demand for cotton at Havre was good, the crisis. The demand for cotton at Havre was good, and the sale amounted to upward of 8,000 bales. The stock is now 88,000 against 39,000 at this time last year. Prices are very firm, and on some qualities an advance has been obtained. At Rouen, more business has been done than was expected at this season of the

The City of Malaga, in Spain, has suffered severely by the panic, and many houses of great respectability and standing have felt its effects. The result may tend to open a trade which has hitherto been in the hands of a few, by whom the price of fruit to the farmer were egulated, and whose increased demands have greatly raised the cost to the dealer and the risk to the im-

Chillicothe, Ohio, Jan. 8, 1858.

There will be a meeting of the Stockholders, Boud-holders, and all other creditors of this Company on Wednesday, the 19th day of February next, at 11 o'clock a.m., at the office of the Company in this city, to determine upon such course of action as may be deemed best, to secure the interests of all con-

corned.

A combination of circumstances, which may be traced back to the year 1856, has, in the opinion of the Directors, rendered such a meeting accessary.

The meager crops of that year, and the consequently small amount of freight, going East on the opening of the road in June last; the very heavy rains which continued throughout the Summer and Fall of 1857, affecting injuriously the condition of the track, and at the same time swelling the Ohio Riverto uch an extent as to render it navigable during the entire senson. the same time swelling the Unio River to ush an ex-tent as to render it navigable during the entire season, thus offering a formidable competition for freight and passengers; the financial revulsions of the past An-rums, and the consequent depression in all kinds of

business; the want of means for the completion of the

business; the want of means for the completion of the caly two remaining tuanels on the line, the transportation over which has been done at great expense; the imperfect and expensive connection with the Baltimore and Obio Railread, and the absence of any cordial and efficient co-operation on the part of that Company, have all concurred to latrease our expenditures and dimarish our revenues.

It has been found absolutely impossible to meet the interest which feel due on 1st November, Dacomber and January respectively. The notes of the Company have necessarily been protested, and many of the laborers remain unpaid, some of whom are now on strike, and are at the present moment forcibly detaining the Rolling Stock of the Company, thus completely suspending the woring of the road, and leaving no prospect of a successful resumption of business during the current month.

In this emergency, the Directors cannot but feel that the interests of all parties are in great jeopardy, and require prompt attention. They are, however, fully confident that a vigorous and hearty co-operation of the parties above indicated may result in measures which will ultimately insure a favorable return for all investments. It is therefore heped that you and all others interested will be present at the naveting, and participate in its proceedings. Per order.

The Philadelphia Ledger of to-day, says:

"We understand that the balances due by the Philadelphia to the New-York and Boston banks have Philadelphia to the New-York and Boston banks have been reduced more than one half since the first day of December. The slight difference of exchange which has raised between these cities and Philadelphia for a week or two past (now about † of 1 # cent) has enabled the creditor banks to realize their balances without serious inconvenience. We are told that the indebtedness now existing is due almost entirely to New-York, and, the amount not being greater than usual at this season of the year, is expected to be rapidly liquidated by the remittances coming to Philadelphia from the West and South, nearly all of which is in drafts or checks on the former city. Besides, the condition of the New-York banks is such that they care nothing about realizing these balances. Between this city and Baltimore the balances are about even. The arrangements for the organization of a "clearing house" will shortly be perfected."

RETURNED—Ship Sylvamus Blanchard, Lawrence, hence for New Crisents Jan. 27, having on the same right at 7 celeck goes ashore on Romer Shoals, near the wreck of the ship Windows Pay, where she by fir 9\square\$ hours, thomping very heavily the entire time. She was set of this Churadayi morning at 4 celeck by steamings Huntreas and Herenies, and towed to the Atlantic Dock, Brook-lyn, this afternoon. She is not leading, bother botton is supposed to be considerably injured. She will be taken on the Dry Dock for examination.

The Br. ship Allied Powers, previously reported lost on the leaden of Feo, was butle at Sunderland, Edg., in 1835, rated A. 1, was 588 time, and valued at about \$2.5,000.

SAS FERNALSO, Jan. 4—The marine disasters on this coast during the past year have been few. The number of ships arriving at this port from New-York are gradually falling off. In the year 1551 we find 1891, [153, 73; 1535, 73; 1535, [164, 164]; and before slapted for this trade; infer out of ten ships from New-York described from the character of our ships, medium ollopers are stronger built, and better slapted for this trade; infer out of ten ships from New-York damages more or less the curps by sevent. The typhose in the Character of our ships, medium of sports are stronger built, and better slapted for this trade; infer out of ten ships from New-York damages more or less the curps by sevent. The typhose in the China Sea lat. October has done considerable damage to vessels and carge Several vessels have strived here in a crippled condition, and changed is large portion of their cargoes. The ship Star King had a large quantity of water between decks, which moved in every direction before the after hatch could be opened to be the water into the lower hold; a lot of tens in the between decks were kelly damaged.
